

# Career Ready Students Found HERE

## Boaz City Schools

Boaz, Alabama

### KEY QUESTIONS

1. Are you interested in recruiting the best, brightest and most motivated students from Northeast Alabama?
2. Would it help you to identify and hire top talent before they earn a college degree and demand top dollar, while you can afford to invest in training them to your specifications?
3. Do you wish you could target your recruiting to rising stars who already show high interest in your industry?

If these questions intrigue you at all, I invite you to consider the plan unfolding at Boaz High School. Please log onto our website to see how our "academy" concept is both different at Boaz High, and setting the bar higher for preparing our students for college and career. Please begin with the 6-minute video at:

Dear Business or Industry Leader:

**We invite you to partner with us to erase the imaginary line that separates high school and career. We want our students exposed to real life challenges, projects and course work as early as they are capable, thereby encouraging them to embrace their career opportunities fully. Please contact us if you have any interest in connecting with students by helping make one of our career pathways the model for education in Alabama.**

Sincerely,  
Gary Minnick, Principal  
Boaz High School
