

College Ready Students Found HERE

Boaz City Schools

Boaz, Alabama

KEY QUESTIONS

1. Are you interested in recruiting the best, brightest and most motivated students from Northeast Alabama?
2. Would you like students to connect with your institution earlier in their high school career?
3. Do you wish you could target your marketing to students with a clear vision of their academic and career success?

If these questions intrigue you at all, I invite you to consider the plan unfolding at Boaz High School. Please log onto our website to see how our "academy" concept is both different at Boaz High, and setting the bar higher for preparing our students for college and career. Please begin with the 6-minute video at:

Dear College Recruiter, Department Head, or Alumni Association Chair:

We invite you to partner with us to erase the imaginary line that separates high school and college. We want our students exposed to college level concepts, projects, and course work as early as they are capable, thereby encouraging them to embrace the college experience fully. Please contact us if one of your departments, or perhaps your alumni association, has any interest in helping make one of our career pathways the model for education in Alabama.

Sincerely,
Gary Minnick, Principal
Boaz High School
