

Mrs. Otinger's Assignments for e-learning day - Feb. 16, 2016

Classes: Algebra 1A, Algebraic Connections, Discrete; Grade Levels: 9-12

1. Pick two topics from below:
 - Solving Linear Equations
 - Solving Linear Inequalities
 - Finding Slope 3 Ways (Graph of Line, Points, Equation)
 - Permutations & Combinations
 - Solving Percent Problems (tax, discount, commission, percent change, etc.)
 - Fundamental Counting Principal & Basic Probability
 - Solving Systems of Equations

2. Watch one video on each topic and find one additional website for information about your topic, then fill out the information and thoroughly answer the questions that follow and email to aotinger@boazk12.org (OR you may choose to hand write the information, take a pic, and upload to Remind101 or email pic to aotinger@boazk12.org).

e-learning Video Assignment (25 points)

List the chosen topics and the video link (5 points):

1. _____

2. _____

Find and list one website with useful information on your topics that does not contain a video (5 points):

1. _____

2. _____

Give one example problem and worked out solution with explanations for each chosen topic (10 points):

1.	2.
----	----

What did you discover about the world of information and help available for learning math?
(i.e., Where the videos helpful? Did you watch more than one to find one you liked or understood?
Where the other websites you found more helpful or the videos?) (5 points)
